

## Cupcake or Cake Pop Party Packages

Looking for something different as a birthday treat for your children this year? The Little house of baking can come along to set up and manage a cupcake or cake pop decorating party in your own home, at our kitchen or your chosen location!

Your little budding baker and friends will create and design their own goodies with our guidance and using our equipment such as how to use sugar craft cutters, flower paste oodles of yummy butter cream, sweeties and sparkles. We will tidy everything away after the party, so there's nothing for you to do except sit back, relax and enjoy some cake! The children leave with their very own party bag including their box of goodies, recipe and certificate.

All that we need is a table large enough for the children to work on, access to a sink for hand washing and some party music!

We have a selection of party packages for you to choose from:

The non baking packages are priced as follow:

Little House Package - £10.00 per head as per details above (4 cupcakes only)

100s and 1000s Package - £15.00 per head as per details above (6 cupcakes or cake pops each)

Magic Sparkle Package - £20.00 per head with details as above (8 cupcakes or cake pops each)

Chocolate Curls Package - £22.50 per head with details as above (10 cupcakes or cake pops each)

Glitter Package - £25.00 per head with details as above (8 cupcakes each and a fantastic baking kit to take away)

If at your own home we bring everything that is required for the party such as aprons, all the sugar craft materials, icing, even our own washing up liquid so we leave the place as we found it.

With the cupcakes we would pre-bake them and bring them along. They will learn to make their decorations using flower-paste in various colours, application of edible glue and glitter to the decorations and how to pipe butter cream icing.

Cake Pops: we would pre-bake the cake for each child, get them to crumble each cake into fine bread crumbs, mix it with butter cream and create lovely sweet balls. We will help insert the sticks and then freeze them for 10 minutes or so. Access to a freezer will be required please.

Whilst the balls freeze they will create their dazzling decorations using flower paste to place on each cake pop. Once the balls are out of the freezer we will leave them at room temperature for about 10 minutes and then finally dip them into candy melt and ready to give them a good make over with the decorations.

We need a large enough dining table to set up and with our parties we give party bags which have various baking items and they take away cupcakes fully decorated in a presentation box, recipe card and certificate.

We look forward to a fun few hours with the kids.

Happy Baking

Rakhee and Sonal 😊
